

# Master Plan Guiding Principles

- The sense of place provided by welcoming, safe, and healthy environments throughout the MCDS campus
- Focus on students, their commonality, their sense of community, but also their uniqueness as people and learners
- Support the core academic functional need with collaborative / experienced-focused educational environments
- Enhancing cross-curricular integration, and general school-wide internationalism
- Promotion of innovation among faculty and staff
- Engage technology as an educational aid; advance our technological infrastructure
- Provide supportive faculty spaces for out-of-classroom prep and planning needs
- Enhance and support additional extracurricular activities
- Pace of change and expediency of achieving the preferred future state
- Discover facility elements of the future (e.g., Library Media Center w/out books)
- Maintain focus around maximizing building system efficiencies
